GNP's - Smart Vehicle Management (SVM)

SVM is aimed at addressing the problem of Transport sector and make efficient and effective Operations or Fleet / Vehicle owners, Crew of the fleet.

MANAGE YOUR VEHICLE / FLEET

- This app is loaded in all Vehicle drivers / owners mobiles.
- All mobile numbers are validated for use of app
- Vehicle master with details will be maintained in Web server, details like RTO info, insurance info, PUC info, key components info
- This system is designed to maintaining Vehicle Log, Driver log without human intervention with backup.
- This system generates alerts for statutory needs as add-on facility

ADVANTAGES OF THE SYSTEM

- Only valid user (Driver / Owner) can use this App.
- Vehicle is uniquely identified by Mobile Phone
- Gives alerts for renewals of vehicle insurance etc.
- Vehicle identification can be done by anyone who is a registered user.
- It tracks the Vehicle and gives the exact position of it.
- It helps in creating vehicle wise trip details.

TRANSPORT INDUSTRY

- Transport Industry has Fleet Operators with multiple vehicles and drivers to drive them
- Keeping track of Driver Log, Vehicle Log, Vehicle performance management is a challenge
- Fleet management with timely alerts
